OST-99-5843-23

Remarks:**Dear Ms. Petree:**

This fax is to voice support for the moving of Wayne County, Kentucky to the Eastern Time Zone.

My business covers many counties in South Central Kentucky and Northern Tennessee and outside of Wayne County 93% of my business deals directly with the Eastern Time Zone.

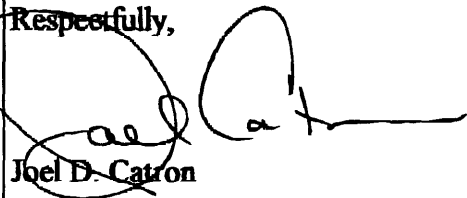

One might expect that the time difference would make little difference... but it does. I have lost sales due to this very fact. People want convenience and they don't want to worry or ponder even the simplest of facts. This is why the time zone plays a factor in this process. In addition all our television broadcasts and major news papers come from the Eastern Time Zone. Wayne County receives virtually all goods and services come from the Eastern Time Zone.

The history of Wayne County will never remember that Ms. Joann Petree made the recommendation (which ever it may be), but your decision will make a lasting impact on the economic well being of a people who need real help (even when most don't even realize it).

Nothing stays the same...we either move forward or backwards... this choice is yours... you will decide the well being of generations to come. I strongly urge you to move Wayne County to the Eastern Time Zone... give us a real chance to improve and grow our economy, give us a chance at a better future.

With highest regards, I remain...

Respectfully,

Joel D. Catron
